

Product Code: 5547

Sector: Motorsport

Issue No: 2

Issue Date: 01/01/22

EXTRA COOL

Engine coolant enhancer & corrosion inhibitor additive

Application

Coolant additive that reduces engine operating temperatures and provides corrosion protection.

Especially suited to classic and modern motorsport applications where cooling efficiency is reduced and where maximum heat transfer is required.

Also formulated for motorsport engines that are not allowed to run conventional coolant/antifreeze.

Mixes with all good quality antifreezes.

Note: Does not provide antifreeze protection.

Dosage Rate:

1 x 250ml bottle treats 10L of water.

Typical Characteristics

Specific Gravity @ 20°C	1.172
Colour	Pale Yellow

Features & Benefits

- Reduces coolant temperature by up to 15°C.
- Provides powerful corrosion protection for all metals found in engines.
- Reduces foaming and cavitation
- Prevents hot spots in the cooling system.
- Reduces engine damage from prolonged high temperature running.
