

## F.A.Q'S

### What is Block Exemption and what does it have to do with oil?

- It is a European Commission law that is designed to stop unfair competition and means that motorists can have their vehicle serviced or repaired in any chosen workshop without invalidating their manufacturer's warranty.
- Prior to 2003 car owners in the EU risked voiding their vehicle warranty when the vehicles were serviced or repaired in workshops not belonging to the vehicle manufacturer or its dealer network. This barrier was broken in October 2003, when the European Commission (EC) passed a law allowing vehicle owners the freedom of having their servicing and repairs done at their chosen workshop, providing it was undertaken to the same standard as the manufacturer.
- Block Exemption also covers spare parts which means that workshops do not have to use vehicle manufacturer original equipment parts (including lubricants) to ensure a vehicle maintains its warranty. Parts can be sourced from any supplier as long as they are of appropriate or 'matching quality'.

### What is OEM (Original Equipment Manufactured) supplied oil?

- OEM refers to something made specifically for the original product, while aftermarket refers to equipment made by another company that meets the standards set by the manufacturer.

### Does the servicing have to be done at the manufacturer's network to keep the warranty intact?

- No, as long as the independent garage performs the servicing to the same standard as the manufacturer.

### I don't want to invalidate my vehicle's warranty by using the incorrect oil; do I have to use OEM oil only?

- No, as long as the oil meets the manufacturer's specifications and requirements. The Millers Oils Trident Professional automotive engine oil range does this.

# TRIDENT PROFESSIONAL

TAKING THE GUESSWORK  
OUT OF CHOOSING THE  
RIGHT OIL

**"THE ONLY OIL YOU'LL EVER NEED"**

TRIDENT PROFESSIONAL

Guaranteeing your customer receives the correct oil for their vehicle can result in you, the professional garage owner or mechanic having to select from a daunting array of products. On top of the worry of having cash tied up in extensive stock and the fear of misapplication, stocking and selecting oil can become extremely frustrating.

NOT SO WITH TRIDENT PROFESSIONAL

- TRIDENT PROFESSIONAL is a bespoke range of multi-application engine oils giving unrivalled vehicle parc coverage. Ideal for the modern day, high volume workshop!
- Developed for the trade, TRIDENT PROFESSIONAL surpasses manufacturer standards in the four key dimensions of fuel economy, emission reduction, enhanced performance and wear protection.
- Formulated for use in hybrid, petrol or diesel engines.
- Millers Oils stop start technology delivers instant protection under hot or cold conditions.

TRIDENT PROFESSIONAL – TAKING THE GUESSWORK OUT OF CHOOSING THE RIGHT OIL

WHICH OIL?

The Millers Oils ‘Which Oil?’ guide is frequently used and can be found on our website. We want to make sure that people know which oil to use and the oil selector makes that very easy. Users can find out which oil they need by either entering their registration plate or selecting the vehicle make and model from the drop down box. The latest version of ‘Which Oil?’ is the most comprehensive version that we have ever published; it lists more options for better flexibility which means Millers Oils is able to fulfil customers’ requirements.

To use our Which Oil? guide visit: [www.millersoils.co.uk/which-oil](http://www.millersoils.co.uk/which-oil)
